INDEX

"Aesthetic element" in card-guessing, 140-43
"Agent," role of, 171, 187-89, 195-98, 202-3, 207, 209
Alcohol, effect of,
  on ESP scoring, 260
  on PK scoring, 260
ALLEN, P., 13
Amateurs as research workers, 3-5
American Psychological Association, 120
Amytal, effect of, on ESP scoring, 259-74
Animals, psi ability of, 54-55, 168-86, 255-57; *see also* Cats as subjects
Anthropologists, a letter to, 144-52
Apparitions, 9, 26, 32, 81; *see also* Hauntings
  as evidence of survival, 19
Arithmetical symbols as ESP targets, 210-11, 213
Attitude toward parapsychology, 20-21, 164-65, 282; *see also* Sheep-goat classification of ESP subjects
  of experimenter, 221-22
  of scientists, 148-51, 164, 220, 275, 282-83
  of subject, as related to ESP scores, 217-18
AVERILL, R. L., 260

BARRETT, W. F., 9, 248
BASTIN, E. W., 137-43
BATEMAN, F., 275-97
BATES, E. K., JR., 116
BECHTEREV, W., 55
BEECHER, W. J., 60
Binomial method, use of, 213, 215-17, 220
Bird orientation, 34; *see also* Pigeons, homing in
BIRGE, W. R., 16
Blocking in spontaneous psi experiences, 86-89, 91, 96; *see also* Completeness of meaning in spontaneous cases
BORN, M., 224
British Association for the Advancement of Science, 248
BROAD, C. D., 279-80, 282-83
BROWN, G. SPENCER, 287-93
BRUGMANS, H. J. F. W., 250-51, 260
BUSSCHBACH, J. G. VAN, 210-14

CADORET, R. J., 259-74
Caffeine, effect of,
  on ESP scoring, 260
  on PK scoring, 260
Call cases; *see* Spontaneous call experiences
CARINGTON, W., 7, 285, 294-95, 311
CARPENTER, C. R., 69, 287
Cats as subjects in ESP tests, 168-86
  fluctuations in success of, 170
  selection of, 170
Causality, 152-54, 208, 223-26, 279-82, 289
  in spontaneous call cases; *see under* Spontaneous call experiences
Children as subjects in ESP tests, 210-14
Chronological distribution of scores: *See under* Distribution of scores
Ciphered messages, 17-19
Circumferential hypothesis of ESP, 299, 305-6, 308
Clairvoyance, 155, 189, 201, 252-53, 279
  compared with telepathy, 290, 292-93
  tests of, 170, 260
CLARK, C. C., 260
Classroom tests with children, 210-14
Coincidence and fate as explanation of psi phenomena, 155-57
Colors as ESP targets, 60, 63, 66, 69-70, 210-11, 213
Column, distribution of scores in; *see under* Distribution of scores
Committee of Advanced Studies at Oxford University, 295
Communicator in séances
  autonomy of, 15
  ciphered message method of identifying, 17-19
  identity of, 13-19, 32
  possible limitations on activity of, 18-19
  post-mortem changes in, 18-19
  sealed pack method of identifying, 16-17
Completeness of meaning, degree of, in spontaneous psi experiences, 79-80, 85, 90-91, 96, 101, 107; *see also* Blocking, Fragmentation
Compulsiveness in spontaneous psi experiences, 86-92
Conditions affecting operation of psi, 142, 168, 170, 172, 176-78, 184, 210, 221-22, 259-61, 264, 303; *see also* Attitude; Conscious effort; Drugs; Fatigue; Knowledge of score; Motivation
Conscious effort, effect of, on scores, 143
Consistent missing effect, 254
Conviction in spontaneous psi experiences, 7, 91 95, 112-13

COOVER, J. E., 250-52, 289
Coriolis force, 44-45
Counterhypotheses to psi; *see* Dice bias; Errors; Experimenter as possible subject; Fraud; Non-randomness of targets; Optional stopping; Psychic shuffle; Selection of analyses; Sensory cues; Whispering
CROOKES, W., 20, 149, 248
Cross-check series in ESP experiments, 115, 130-31, 289, 291-92
Cross correspondences, 14

DALE, L. A., 301
DC potential correlated with ESP, 261, 273
Decline in scoring, 184, 251, 254, 290
  chronological, 216-17, 220
  in column, 115, 133-35
  with drugs, 259, 265-70
  in low-scoring data, 266-67
  from one side of record page to other side, 216
  on page, 216, 220
  in random numbers tables, 288
  between sessions, 265
  within session, 266, 269-70
Delayed checking of results compared with immediate checking, 137, 140-43
Der Zufall und das Schicksal, review of, 155-57
Dexadrine, effect of, on ESP scoring, 259-74
Diametric hypothesis of ESP, 299-300, 308
Dice bias as a counterhypothesis to PK, 305
Direction finding in mice, 169; *see also* Homing
Displacement, 254, 288, 293, 295, 306
  reinforcement effect in, 300, 306
Distance, effect of, on ESP, 218, 252
Distance experiment, 294
Distribution of scores; *see also* Position effects
  chronological, 123-25, 181-82, 216-17, 220
  in the column (run) 115-17, 123, 126-29, 133-35
  in cross-check data, 115, 130-32
  in first five trials of column, 115, 117, 128-29
  in first half of column, 117
  in odd and even numbered trials, 115, 120, 127-29, 134
  on the page, 115, 130-31, 133, 216, 220
  from page to page, 216
  within the segment, 115, 119-20, 126
  among segments of column, 118, 124-26, 129-30
  on target doubles, 120-22, 127, 135, 300, 306
  on target singles, 120-23, 125-26, 127, 135
  as related to time of day, 181-83
  U-curve in, 115, 134
DODD, A., 13
DODDS, E. R., 310-11
Doubles targets, scoring on; *see under* Distribution of scores
DOWDEN, MRS., 13
DRAKE, R. M., 287
Dramatic expression of spontaneous psi experiences, 79
Drawings tests of ESP, 294-95; *see also* Expansive-compressive classification
Dream type of spontaneous experiences, 82, 96, 107, 109-12
Drugs, effect of,
  on ESP performance, 259-74
  on motivation, 274
  on PK, 260
Dualism, 154
Duke collection of spontaneous cases, 191-93, 206
DUNNE, J. W., 281, 283

ECCLES, J. C., 278
Electric shock, use of, in experiments with cats, 168-69, 171-72, 175-76
Emotional stability, correlated with ESP, 290
Emotionalism in spontaneous experiences, 85-92
Errors
  of checking, 219-20
  of method, as a counterhypothesis to psi, 264, 284-87, 289
ESDAILE, J., 283
ESP (Extrasensory perception); *see also* Clairvoyance; Precognition; Psi; Spontaneous psi experiences; Telepathy
  correlated with PK, 301
  criticism of research in, 146, 283-87
  in experimenter, as a counterhypothesis, 186
  as related to PK; *see* ESP-PK relationship
  prevalence of, 210
  in school children, an investigation of, 210-14
  a test of, in cats, 168-86
ESP cards as targets, 61, 63, 66, 70, 259, 262-67, 270-71
  covariation of, with ESP picture scores, 270-71
ESP-PK relationship
  one-step theory of, 298-300, 305-6, 308
  a test of, 298-309

two-step theory of, 298-99, 305-6, 308
ESP process
one-step theory of, 298-300
two-step theory of, 298-99

"Sheep-goat" classification of ESP subjects, 217
Side habit, effect of, on ESP scores, 168, 172, 175, 178-84
SIDGWICK, H., 20
SIDGWICK, MRS. H., 26, 310
Singles in targets, scoring on; *see under* Distribution of scores
SKIBINSKY, M., 70-71
SKINNER, B. F., 284
SMITH, B. M., 6
SOAL, S. G., 7, 16, 114-18, 120, 129, 134, 252, 255, 275, 300
Social implications of psi, 256
Society for Psychical Research, 248, 253, 310-11
accomplishments of, 7-22
aims of founders of, 6, 10, 14, 20-21
Societies for psychical research in the development of parapsychology, 248-52
SONES, M., 301-2
Space-time relationships of psi, 188, 208-9, 279-80
Spirit phenomena, 310-11
Spiritualism, 146, 248, 250, 310
Spontaneous call experiences
"agent" in, 187-89, 195-98, 202-3, 207, 209
causal operations involved in, 187-88, 191-92, 207-8
associated with death, 198, 201
associated with deceased personalities, 187, 193-95, 201, 203-8
associated with illness, 199, 201
associated with impersonal agency, 193-95 201, 205-7
associated with living personalities, 187, 195-98, 201, 203-7
nature of event associated with, 198-201, 203, 207
involving a parallel event, 192-93
involving no parallel event, 193-95
precognitive, 187-88, 201, 203, 207-9
role of percipient in, 187, 204-7, 209
compared with stimulus-response relationship, 187-89, 192, 195, 202-4, 207-9
associated with strong emotion, 200-201, 203
time of event associated with, 201-3
Spontaneous psi cases, 157, 249; *see also* Spontaneous psi experiences
historical interest in, 78
value of, 4
Spontaneous psi experiences; *see also* Spontaneous call experiences; Spontaneous psi cases
conviction in, 7
experimental reproduction of, 7
forms of, 77-114
"manner" of, 79-80, 110-11
origin of, 187
relation of, to associated event, 187-209
as compared with stimulus-response relationship in sensory perception; *see under* Spontaneous call experiences
symbolism in, 79, 96-100
Statistical analysis of ESP, criticism of, 287-93
STERN, W., 62
STEWART, D. A., 293
Stewart ESP data, position effects in, 115-36
control test for, 130-32
STEWART, MRS. G., 71, 280, 286, 288, 292, 300
compared with a contemporaneous guesser, 293
STRIBIC, F. P., 285, 291-92
"Structuring" of psi task, 115, 126, 128, 130, 134

STUART, C. E., 62, 71, 254-55
Subjective forms of spontaneous psi experiences, 77-114
Suggestion, effect of, on ESP, 69-70
Sun angle hypothesis of homing in pigeons, 36
Sun navigation hypothesis of homing in pigeons, 46-52
Survival, evidence for, 81, 206, 208-9; *see also* Spontaneous call experiences associated with deceased personalities
  coincidence as explanation of, 12, 16
  criteria for judging, 10-11, 32-33
  methods of evaluating, 16-17
  psi ability of medium as explanation of, 15, 17
  significance of, for religion, 19-20
  status of, 12-20
SWANTON, J. R., 144-52
Symbolic form of spontaneous experiences, 79, 96-100

Table of contents (Vols. 1-16), 230-46
Targets in psi tests; *see also* Arithmetical symbols; Colors; Drawings; ESP symbols; Letters of the alphabet; Names; Numbers; Pictures; Playing cards; Words
  number of, 62
  with personal associations, 70-71
  preferences in, 69
  randomness of, 211-12
  range of, 61, 63, 69
  results of differences in, 61-72
  size of, 62
Tarheel Racing Club, 57
Telepathy, 33, 78-79, 146, 149, 155, 171, 188-89, 196, 210, 249-53, 275, 278-79, 283-84, 288-90, 310
  compared with clairvoyance, 289-90 292-93
  proof of, 8
  Tyrrell's theory of, 31-32
Tempo, 62; *see also* Rate of calling
TENHAEFF, W. H. C., 163, 294
THOMAS, C. D., an obituary of, 310-11
THORPE, W. H., 35-36
Thought transference; *see* Telepathy
THOULESS, R. H., 6-23, 253, 287, 295-96, 298, 301, 308
Tijdschrift voor Parapsychologie, 210
Time, theory of, 153-54
Time interval between presentation of target and response, results of differences in, 61-72
TROLAND, L. T., 250
TURING, A. M., 275-76
TYRRELL, G. N. M., 1, 7, 19, 285, 291
  contributions of, to psychical research, 24-33
  experimental work of, 27-29
  theoretical and philosophical views of, 29-33
Tyrrell pointer apparatus, 25, 27-28

U-curve, 115, 134
Unconsciousness of psi, 77, 91, 96, 101, 107-8, 113-14, 204, 206-7, 209, 254-55, 306-7, 309
Unconscious factors, influence of, 293
University College, Ibadan, Nigeria, experiments at, 137
Unrealistic dreaming type of spontaneous experience, 77, 81-82, 96-101, 109, 111-12, 114

VAN BUSSCHBACH, J. G., 210-14
VAN DE CASTLE, R. L., 61-72
Variance, discussion of analyses of, 272-73
Visualization of target, 138
VOGELBERG, L., 169
VON SCHOLZ, W., 155-57
VON ST. PAUL, U., 35, 37-40, 48, 51, 57

Waking spontaneous experiences, 82, 96, 101-2, 107, 109-12
WARNER, L., 165
WASSERMANN, G. D., 293
Whispering as a counterhypothesis to psi, 285
WHITTLESEY, J., 223-26
WIESNER, B. P., 253, 298, 308
WILD, E. H., 294
WILKINSON, B., 272
WOOD, T. E., 19
WOODRUFF, J. L., 260
Word association test, 15
Words as ESP targets, 210-11, 213

Yates' tables, 268
YEAGLEY, H. L., 45

CONTENTS

NUMBER 1, MARCH, 1953

Editorial — PAGE

Parapsychology and Its Personnel 1

Psychical Research Past and Present ..... Robert H. Thouless 6

G. N. M. Tyrrell and His Contributions to Psychical Research ..... W. H. Salter, G. W. Fisk, and H. H. Price 24

The Homing Problem in Pigeons ..... J. G. Pratt 34

An Exploratory Study of Some Variables Relating to Individual ESP Performance ..... R. L. Van de Castle 61

Glossary 73

NUMBER 2, JUNE, 1953

Subjective Forms of Spontaneous Psi Experiences ..... Louisa E. Rhine 77

Position Effects in the Stewart ESP Data ..... J. G. Pratt 115

Some Experiments in Precognition ..... E. W. Bastin and J. M. Green 137

Letters and Comments

A Letter to Anthropologists ..... John R. Swanton 144

Comments on C. W. K. Mundle's Article "Some Philosophical Perspectives for Parapsychology" ..... Antony Flew 152

Book Review

Der Zufall und das Schicksal by Wilhelm von Scholz ..... Frederick W. Knowles 155

Glossary 158

NUMBER 3, SEPTEMBER, 1953

Editorial PAGE

The Prospect for Further Exploration 161

A Test of ESP in Cats ..... Karlis Osis and Esther Bond Foster 168

The Relation of Experience to Associated Event in Spontaneous ESP ..... Louisa E. Rhine 187

An Investigation of Extrasensory Perception in School Children ..... J. G. van Busschbach 210

A Review of Kahn's "Studies in Extrasensory Perception" ..... J. G. Pratt 215

Letters and Comments

Further Comments on Causality ..... John Whittlesey 223

Glossary 227

Table of Contents (Volumes 1-16) 230

NUMBER 4, DECEMBER, 1953

Editorial PAGE

The Pattern of History in Parapsychology 247

The Effect of Amytal and Dexadrine on ESP Performance ..... Remi J. Cadoret 259

Science and ESP Research ..... F. Bateman and S. G. Soal 275

A Test of the Relationship Between ESP and PK ..... Karlis Osis 298

Obituary: The Rev. C. Drayton Thomas ..... Helen De G. Salter 310

Glossary 312
